

APP Little Mozart App

DESCRIPTION

A fun, friendly introduction to Mozart, full of music, for young children.

The 'Little' apps from Naxos, beautifully compact and with endearing animated illustrations, are ideal introductions for young children to classical music. Each selection of tracks is carefully tailored for younger listeners, including famous pieces as well as unexpected gems. The narrated text is a friendly outline of what the music means - sometimes concentrating on the stories behind it, sometimes on the sounds themselves, and sometimes on the composers. With a simple interface to stop and start the tracks and animation, or hear the narrated text, these apps open the door to a wonderful world that children and parents can discover together.

If you listen carefully to the music in this app, you will get to know one of the best composers in the world. Wolfgang Amadeus Mozart lived 250 years ago but he carries on being famous – so he must have been special. He giggled a lot. He was also good at playing the piano and the violin. And he wrote this amazing music, which people still love hearing today. See if you love hearing it too!
